

WHY ARE TEACHERS EXCITED TO MOVE INTO THE NEW BUILDING

Sara Bowron

"I'm excited because it will be nice to be in a nice, fresh, clean, new space, and it's forcing me to purge through a bunch of my old stuff and try to get rid of things."

Simon Hart

"Because I am looking forward to having functional air conditioning."

Rick Wedlow

"I'm very excited to move into the new building because it creates a new chapter. The new generation of LN students have the opportunity to start building on tradition. I'm looking forward to creating new history."

Kelly Shoger

"The science labs are phenomenal, there's tons of extra light, lots of great storage. We're going to do lots of fun labs and be able to incorporate science into the whole rest of the school community."
